The truck track was exceptionally busy.
It was highlighted that there was the lack of boats on the lake by members of the club – many on show but not sailing, perhaps next year we could appeal to members to put their boats on the lake!
Thank you to Rob D for supplying the spikes to put out the signs.
A man delivered some part built boats and tools to site on Open Weekend for Nick to sell, which he did and raised £70 for the mans chosen cancer charity.
- Open Weekend 2026 – possibly the farmer would let us use the field again next year – harvesting permitting. Maybe put back the event for a week!

AOB

A complaint has been made to the committee by a member regarding the use of foul language onsite. The member was so annoyed with the language, he took his daughter home.

BAD LANGUAGE WILL NOT BE TOLERATED ONSITE.

A member of the public contacted Sarah as they found a boxed RC boat by the side of the road near York. Sarah has the boat in her living room and will contact national boat clubs just incase it has been stolen.

A member has contacted Sarah regarding displaying our models in Blackpool in November. I'm awaiting more details, as soon as this is received it will be forwarded to the committee. We could contact all members to see who else would like to go and possibly look into a coach.

We have had a boat donated, it is watertight and with a fibre glass inside it is a strong boat.
